Personal Summary

High-performing Computer Science graduate (Rank 5/260, LAUTECH) and Full-Stack Software Engineer with specialized research in Natural Language Processing. Proven experience optimizing enterprise web platforms serving 500+ daily operational users, maintaining 99% system uptime and engineering signal filtering logic. Proficient across JavaScript (React.js, Node.js), Python, SQL, and REST APIs, combining solid theoretical computer science fundamentals with hands-on application delivery.

Technical Skills

- **Languages:** JavaScript (ES6+), Python, C++, SQL, HTML5, CSS3
- **Frontend Development:** React.js, Redux, Bootstrap, Responsive Design, REST API Integration
- **Backend Development:** Node.js, Express.js, MongoDB, Relational Databases (SQL), WebSockets
- **Developer Tools & Workflow:** Git, GitHub, VS Code, RESTful Web Services, Microsoft Excel

Education Background

Ladoke Akintola University of Technology (LAUTECH), Ogbomoso, Nigeria

Major in Computer Science (B.Tech)

October 2018 – March 2024

Second Class Upper Hons - 4.15/5.0 CGPA (**Rank:** 5/260)

Thesis: A Review on Sentiment Analysis Using Natural Language Processing ([Link](#))

Relevant Work Experience

Self-Employed | Freelance Full-Stack Engineer - Obubra, Cross River Nigeria

January 2025 - Present

- Architected and deployed production web applications using React.js, Node.js, Express, and MongoDB for client web platforms.
- Built custom Python utility scripts to automate data classification using lightweight NLP models integrated via REST APIs.
- Consulted directly with non-technical business clients to capture requirements, manage Git workflows, and deliver maintainable full-stack codebases.

Nigerian Airspace Management Agency (NAMA) | Web Programmer & IT Specialist (Contract / Side Gig) —

Obubra, Cross River, Nigeria

January 2025 – December 2025

- Managed and optimized aviation web platforms serving 500+ operational users, maintaining 99% uptime through proactive error handling and network troubleshooting.
- Resolved 30+ critical technological issues in airspace services, implementing signal filtering logic to reduce data error rates by 20%.
- Collaborated with a cross-functional engineering team of 10+ members to enforce system security, data integrity, and reliable service delivery.

Lautech New ICT | Industrial Training (Web developer assistance) - Lautech, Ogbomoso, Oyo Nigeria

January – June 2022

- Contributed to web development projects, applying hands-on skills to real-life tasks and sharpening expertise in the development lifecycle.
- Supported the development and maintenance of university web platforms
- Enhanced programming proficiency through applied Python coursework and real-world development tasks.

Lautech Computer Science and Engineering Laboratory | Student Work Experience Program - Lautech, Ogbomoso, Oyo Nigeria
2020

- Trained in practical application development using C++.
- Advanced skills in procedural C++ programming through lab-based projects.

Leadership and Volunteering

- National Youth Service Corp (NYSC), 2025
- Taught Mathematics & Physics to 150+ senior secondary students
- JCIN LAUTECH Chapter, 2023–2024
- Served as General Secretary managing organizational documentation and executive meetings.
- Academic Tutor (LAUTECH), 2021–2023
- Instructed and evaluated 1,000+ total undergraduate students across Computer Logic (CSE301), Engineering Mathematics, and Elementary Mathematics

Projects

Sentiment Analysis NLP Classifier | *Python, NLP, Pandas, Scikit-Learn*

- Researched and built natural language processing pipelines to process and classify sentiment within textual datasets to improve automated decision-making.
- Presented poster research at the LAUTECH International Research Exhibition (2024).

Awards & Leadership Highlights

- **Honored Tutor:** Department of Computer Science & Engineering, Class of '23.
- **Academic Excellence:** Ranked #1 in C++ Programming (CSE301) and Elementary Mathematics (MTH101).
- **Community Leadership:** General Secretary, JCIN LAUTECH Chapter (2023–2024); Instructed 1,000+ students in STEM subjects.
- **Affiliations & Languages:** Member, National Association of Computing Students (NACOS); Fluent in English & Yoruba.

Certification and Professional Development

Server-Side Development with NodeJS, Express, and MongoDB The Hong Kong University of Science and Technology (Coursera) | Completed May 2026

- Gained expertise in building RESTful APIs with Node.js and Express, integrating MongoDB for full-stack applications, and deploying server-side solutions.

Meta Front-End Developer Professional Certificate Meta (Coursera) | Completed December 2025

- Mastered advanced front-end development skills, including HTML5, CSS, JavaScript, Bootstrap, React.js, version control with Git, and building interactive web applications.
- Completed capstone projects focused on UX/UI design, responsive layouts, and preparing for front-end developer roles.

Responsive Web Design Certification freeCodeCamp | Completed November 2025

- Built responsive websites using HTML, CSS, Flexbox, and Grid, completing 5 certification projects with a focus on accessibility and mobile-first design.

Front End Development Libraries Certification freeCodeCamp | In Progress (Expected Completion: January 2026)

- Developed projects using React.js, Redux, Bootstrap, and Sass, reinforcing state management and component-based architecture.
